BACKGROUND

Entering year 9 of the Syria crisis, conflict continues to expose civilians to acute humanitarian needs in health, WASH, Shelter, NFI and protection. In North East Syria (NES) widespread displacement, destruction of basic services and increased exposure to protection risks is on-going. In response, UPP and its local partners are running since 2017 a humanitarian Action in the health sector focused on providing timely and quality emergency and primary health care for the most vulnerable population affected by the conflict (camps and out of camps).

Through this intervention, UPP aims to ameliorate living conditions and save lives of war-affected persons in NES. The Action will improve safe and equal access to primary health care and to ambulance referral system, together with health and protection prevention and community outreach. The Action provides support to 5 primary health care facilities and to a NES-wide Emergency Management Coordination Center for ambulance referrals management.

The planned outcome is to improve the health status of the conflict-affected population with a view of building the capacity of local actors and the resilience of communities in NES.
